The Proper of the Mass. A. E. Tozer.
For Sundays and Principal Festivals.
Set to simple and appropriate figured music for mixed voices.

This arrangement is intended for those choirs who find the plain chant from the Graduale beyond their powers of execution; and, secondarily, that those who regularly sing the prescribed melodies, but who may not be able to master everything set down for any particular Mass, may have something at hand which is easily learnt, and of greater musical interest than a mere recitation of the words on a monotone, or even to a psalm-tone. It is of obligation to sing the proper Introit, Gradual, Offertory and Communion at every High Mass or Missa Cantata. It is better, then, to do well some such simple settings as these, than to labor indifferently through plain chant, which is often very difficult.
